

A. Using APP to manager Cross Hair

1. Upgrade Cross Hair by "ReaSnow Flash Tool.exe"

1.1. Plug Cross Hair into PC while holding the hidden button on it with a toothpick, Release the button when Cross Hair LOGO is green.

1.2. Run "ReaSnow Flash Tool.exe" and click "Upgrade firmware" button. Wait until the upgrade is finished.

2. Manage Cross Hair

2.1. Connect all your peripherals to Cross Hair, then connect Cross Hair to console.

As showed below:

- Please do connect Bluetooth dongle to USB 2 on Cross Hair.
- Go to PS1 for more wiring diagrams

2.2. Turn on **Bluetooth** and **Location Services** on your smart phone. Then run **ReaSnow Manager APP**

Android: Search "ReaSnow Manager" in Google Play
Or Download APK from our forum

iOS: Search "ReaSnow Manager" in App Store

B. Returning to Cross Hair Manager

If you would like to use Cross Hair Manager, it's simple:

1. Plug Cross Hair into PC while holding the hidden button on it with a toothpick, Release the button when Cross Hair LOGO is green.
2. Run "Cross Hair Manager V4.x.x.exe" and click "Cross Hair icon" in the center. Then click "Yes", once you are notified to upgrade.

PS1: Wiring Diagrams:

PS2: Things to be prepared before using our APP

1. A Bluetooth dongle(Bluetooth 4.0, CSR8510chip recommended)

2. USB hub(optional)

Most of the USB hub shall be compatible,
But you might find lesser trouble while using a USB 2.0 HUB.
